Map(s) are intended to be used as a tool to assist in determining where wind and/or flood coverage may or may not be written and do not fully represent all of the guidelines. Please submit a completed application to underwriting for consideration.

Color coding:

- The areas highlighted in **Red** are restricted areas or barrier islands and can only be considered excluding wind coverage.
- The areas highlighted in **Yellow** can be considered including wind coverage if property is more than 1,000 feet from tidal water.
- Flood may not be written in any of the highlighted areas.
