

Zurich Builders Risk: Product & Policy Tips

June 2026

Jaclyn,

The market in your area has changed, and you might be surprised how we're adapting our pricing approach to compete! In this month's recap, learn about pricing updates for commercial new construction projects valued over \$10M, get tips for reporting form accuracy and more.

Share this edition with colleagues to help everyone stay ahead in today's evolving landscape.

Commercial Pricing Approach Refined

We're leaning into the soft market for risks valued over \$10M. Learn more about what to expect from Director of Product Underwriting Gina Newmans.

Terminology Spotlight: Debris Removal Coverage

Debris removal is automatically included in our standard builders risk policy with the option to increase sub-limits beyond the base amount provided.

The coverage protects from debris removal expenses on the property caused by a covered cause of loss if it's reported in writing within 180 days of the date of the direct physical loss or damage.

Zurich Residential Builders Risk 101

30-Minute Webinar | July 28 or 29 | 11 a.m. or 2 p.m. ET

In this virtual training, you'll learn how to secure new home construction, remodeling and installation projects under the "A" rated Builders Risk Plan insured by Zurich.
