Did You Know? Our E&S Policy Is Follow Form

Our E&S policy mirrors our admitted policy language: it’s like one program with two connected parts that helps deliver consistent coverage backed by A-rated carriers.

- Same coverage form language, so there are no surprises.
- Broad eligibility and CAT capacity, ensuring fast placement with a viable market.
- Separate deductibles for flood, wind and named storm, so pricing is best matched to the risk.
- Seamless handling of renewals or extensions between the two policies, keeping the process manageable.

Terminology Spotlight: Anticipated Completion Date

The specific date when the project will be finalized according to the construction agreement, rather than the policy expiration date. If you can’t find the completion date in the agreement, consult with your client.

[Recorded Webinar] Application Accuracy: 6 Ways to Improve Your Zurich Builders Risk Submissions

In just 30 minutes, our expert will walk you through six common trouble spots in the application process, proactive tips to avoid them and key policy details that can make or break your submission.
