You'll answer just six questions, along with the risk address. If your responses meet the requirements, you'll get a formal quote in record time. No additional underwriting information or holds will be required.

1. Is this a single family dwelling with a total completed value of \$500,000 or less?
2. Does the contractor have at least two years of project related experience?
3. Is the home more than 30 percent complete?
4. Is this a modular home?
5. Is the protection class 9, 10 or ending in X?
6. Effective date (text field)

All that's left is to enter is basic client information, validate your license, select the billing preference, and 3, 2, 1...liftoff. The policy is ready for delivery, and the premium invoice will be direct billed to your client.

**Eligible project examples:** Residential one to four family new construction, from custom and tract homes to detached garages, work sheds and duplexes.
